

Assignment 2 Part C: Comparative Analysis

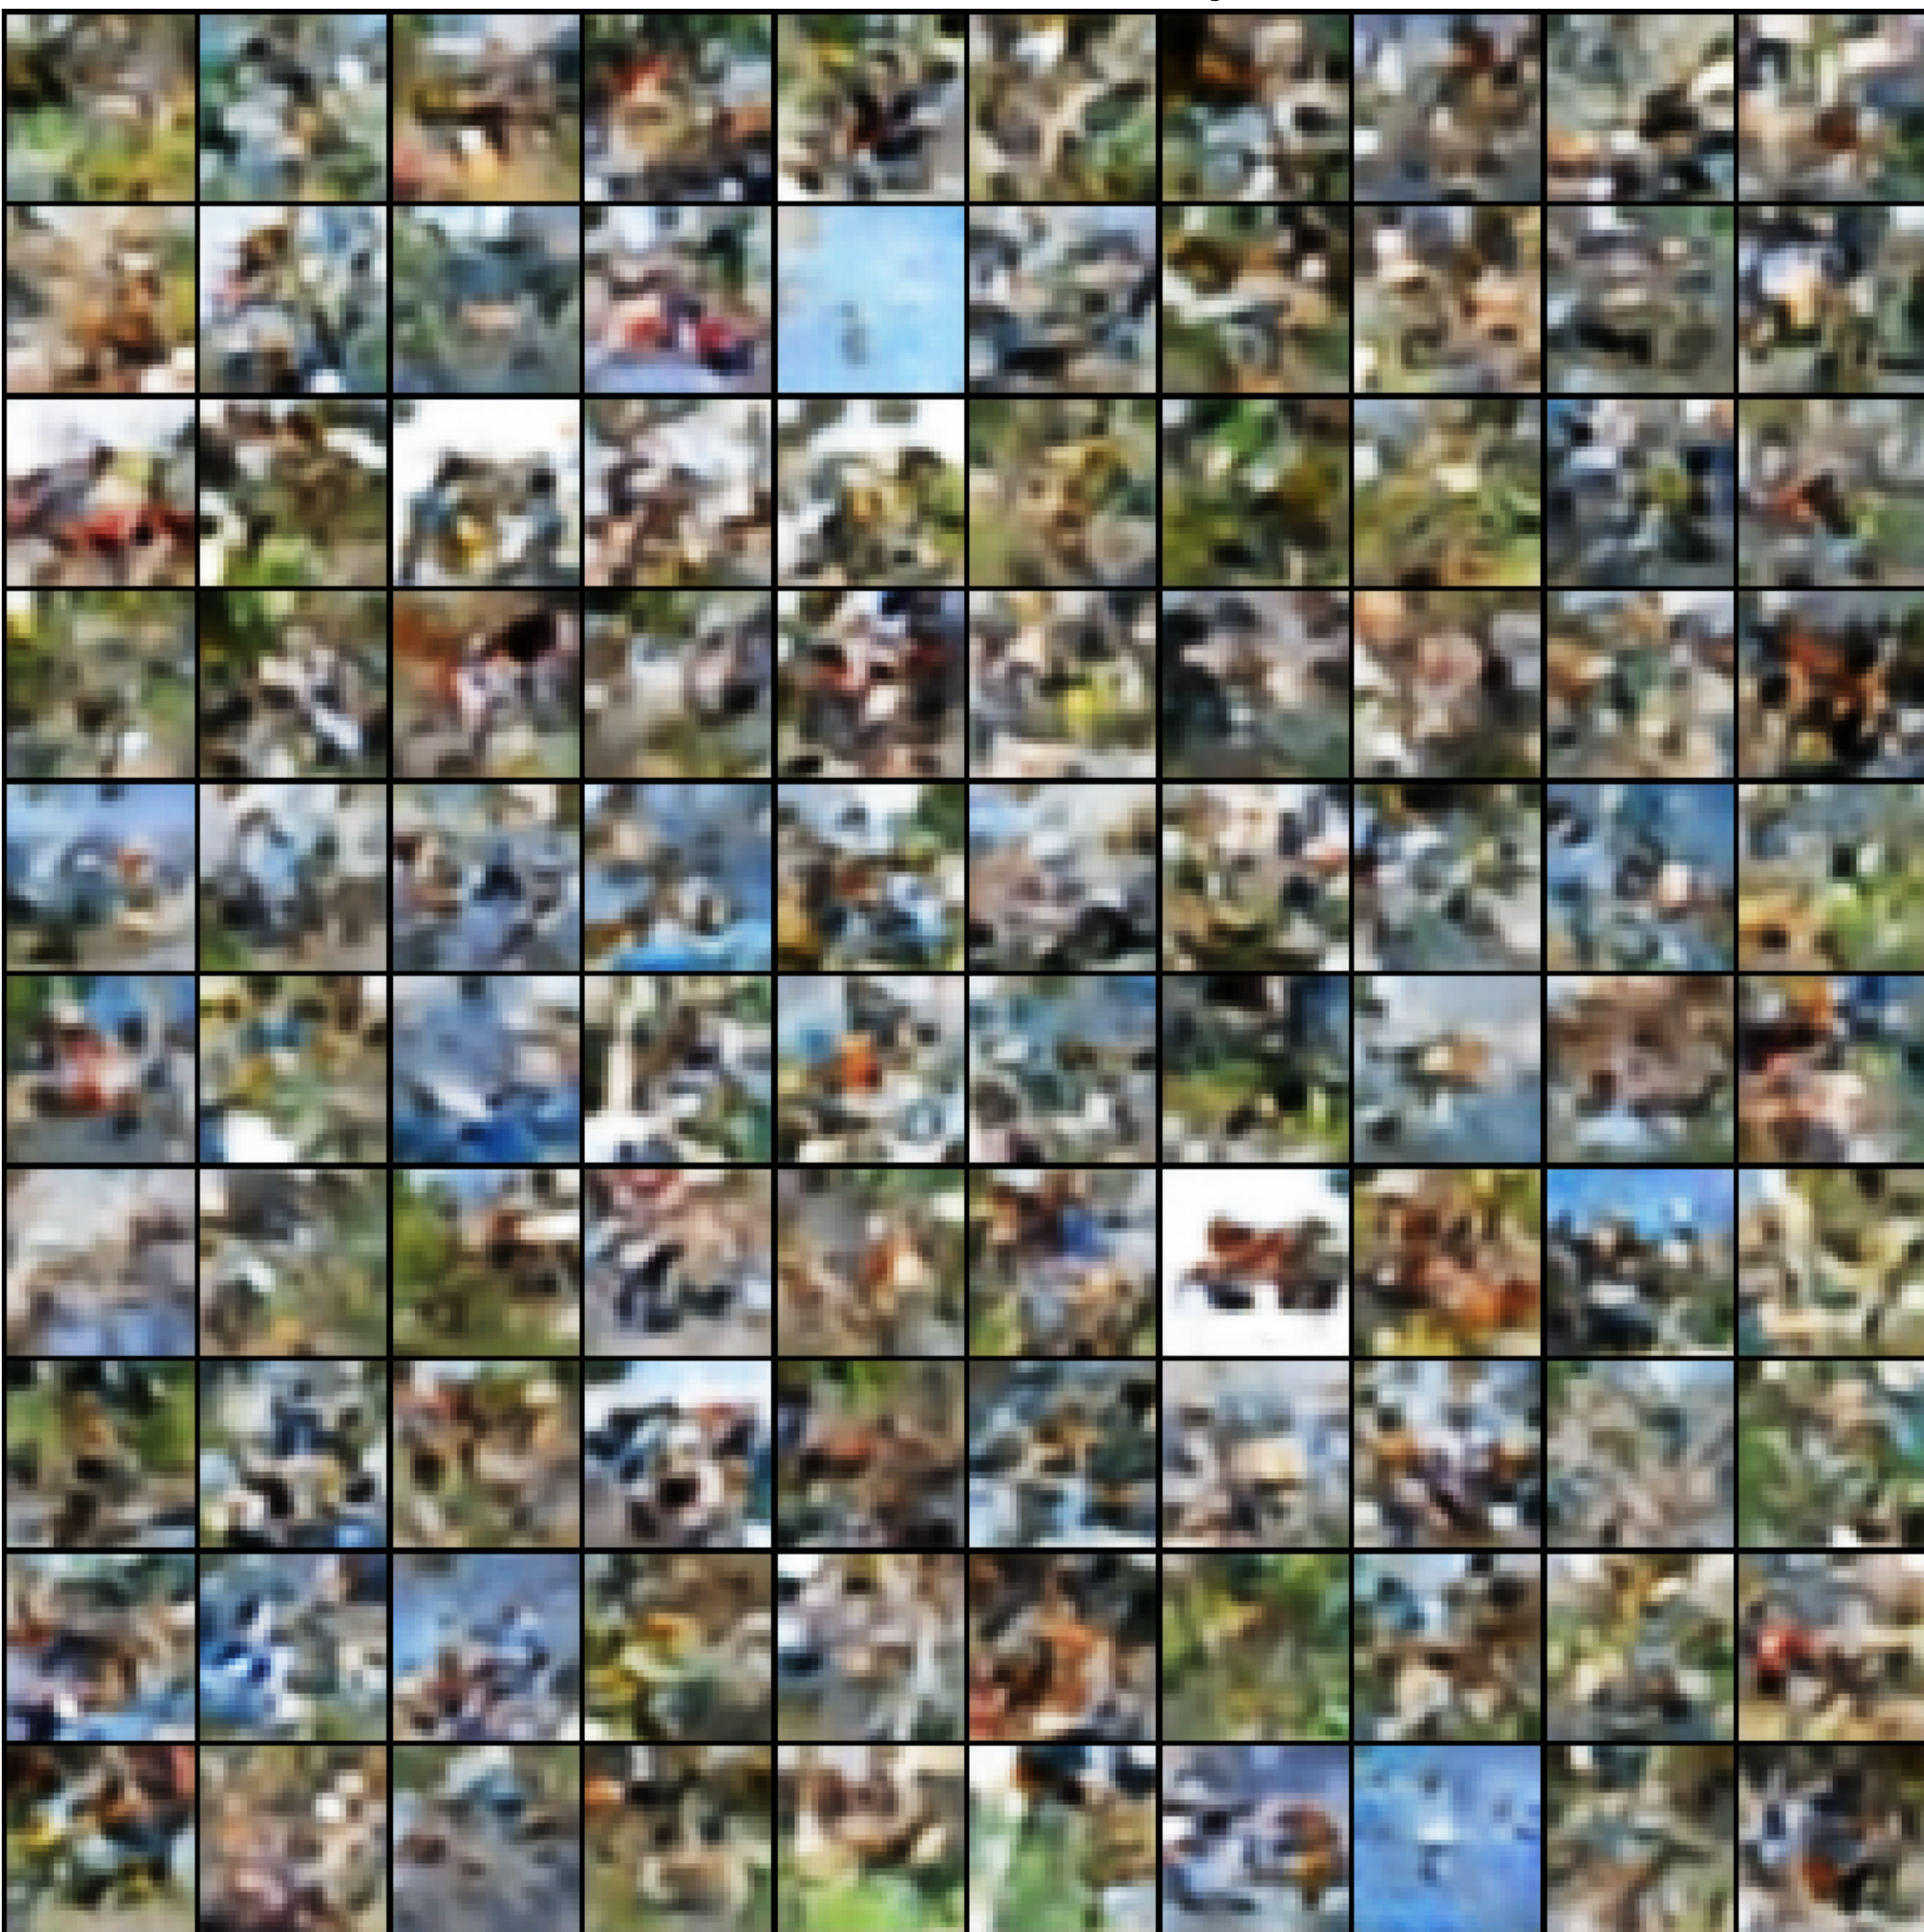

Model	PSNR (dB)	FID
beta-VAE (beta=1)	18.02	0.0005
VQ-VAE + PixelCNN (K=256)	24.24	0.0088
WGAN	N/A	0.0016
WGAN-GP	N/A	0.0010

PSNR applies only to reconstruction models. Compare the following 100-image grids for perceptual quality and discuss training speed from the execution logs.

beta-VAE (beta=1) reconstructions: 100 images

VQ-VAE + PixelCNN (K=256): 100 images

WGAN samples: 100 images

WGAN-GP samples: 100 images
